SUBJECT: Closure Letter on Quality System Audit

Mr. Holley,

You are requested to reference the following information: Discovery Corporation contracts and purchase orders with Government Source Inspection (GSI), FAR 52.246-02 (Inspection of Supplies – Fixed Price), FAR 52.246-11 (Higher-Level Contract Quality Requirement), ISO 9001:2008 (Quality Management Systems), Discovery Corporation Manual Original, Revision A, dated October 2014.

On November 19-20, [REDACTED], DCMA Cleveland performed a Quality System Audit (QSA) at your facility and found no Non-Conformities that would result in a Corrective Action. Discovery Corporation has met the requirements set forth by (Higher-Level Contract Quality Requirement), Tailored ISO 9001:2008 Standard as indicated in Prime government contracts. This audit satisfies DCMA's Quality System Audit Requirement. Your next quality system audit will be scheduled three years from the date of this letter unless any documented deficiencies or negative trends warrant DCMA to conduct a full or partial QSA audit prior to latest QSA from November [REDACTED]. This letter concludes that the QSA has been closed and there are no further actions required.

If you have any questions please call me at [REDACTED] or by e-mail at [REDACTED]@dcma.mil.

Regards,

[REDACTED]/QSA Lead Auditor  
Quality Assurance Specialist  
DCMA Cleveland / Team [REDACTED]
